20,000 Pheasants Killed In Season

SAN FRANCISCO, Dec. 14.—The first open pheasant season in California is over and reports of game wardens, the hunters enjoyed the six day shoot, though many were somewhat disillusioned when it came to getting their birds.

Reports to the State Fish and Game Commission indicate that about 20,000 pheasants were killed during the six day period, and that the population of pheasants, estimated in California to be close to 1,000,000 has not greatly declined to the game.

State Board In Row Over New Rum Law

SAN FRANCISCO, Dec. 14.—A rift among members of the State Board of Equalization appeared today over the liquor control situation in San Francisco.

Members of the board were in session today when they learned that their fellow member, John C. Corbett, of San Francisco, had notified Donald Macdonald, head of the state enforcement group here that the latter had been authorized to raid the Marshall Hotel, which is a well-known night club.

Macdonald said Corbett had no authority to raid the hotel. He said that the hotel was a private club and that he was not a member. He said that he was not a member of the hotel and that he was not a member of the hotel.

PROPOSE TO ENCOURAGE TEMPERANCE

WASHINGTON, Dec. 13—UP—

Proposals to encourage temperance throughout the nation by removing the tax on light table wines and lowering the levy on diluted wines, which permit sales at ten cents a glass, were presented before the joint congressional liquor tax committee today.

Post prohibition problems continue foremost in many government departments today as the nation entered its second week after repeal of the dry laws.

The federal alcohol control administration announced that 5,395,187 gallons of wines and liquors would be admitted from abroad during the four months period ending March 31, under fixed quotas for individual nations.

These quotas are to be extended after trade treaties are negotiated. The government, meantime, moved to bring vintners under federal regulation. An attempt to include grape growers and wine producers under the same marketing agreement brought stiff opposition from a group of California wine men.

H. O. Lanza, representing the California Association of Wine Producers, said the proposed agreement would force the producers to guarantee the grape growers fixed prices for their products. This, he said, was impossible because of variety, climate, soil and methods of cultivation.

Mrs. W. L. Esphen of Grant underwent an operation yesterday.

Mrs. Jeanette Hall and sons, William and Stanley, have just returned from Willis, where they visited.

Will Oppose Big Utility Appeal Suit

SAN FRANCISCO, Dec. 13—UP—

A petition of intervention will be filed by the city of San Francisco in an attempt to halt an appeal suit by the Pacific Gas and Electric company to the federal court to block a scheduled \$2,000,000 gas rate reduction order, it was announced today by Philip Holmes, special assistant city attorney.

Holmes said he would ask permission to appear in federal court with testimony and arguments opposing the utility's plea.

McCallum Manager San Mateo Times

SAN MATEO, Dec. 13—UP—

Earl McCallum was appointed general manager of the San Mateo Times today by trustees acting under the will of the late publisher, Horace Applefield.

McCallum was business manager of the Daily Olympian of Olympia, Wash., business manager of the News-Searchlight of Bremerton, and owner of the Weekly American in Charleston, Wash., and was employed by the San Francisco Examiner and the Daily Press of Pontiac, Mich.

He assumes his new position immediately.

Local Woman Is Called By Grim Reaper

Mrs. Nancy E. Cranson, 447 Ninth street, who resided here for the past 17 years, died at her home yesterday morning following a long illness.

Deceased was 57 years of age and was a native of the city of Fresno. Surviving relatives include her husband, Andrew E. Cranson; two sisters, Mrs. A. Brown of Richmond and Mrs. M. Adams of Stockton; eight brothers, Frank, Sterling, Edward and Fred Sween of Stockton and John, Lee and Jefferson Sween of Chico and Charles Sween of Oakland.

Funeral services will be held at 10 o'clock Friday morning from the Wilson and Kratzer chapel.

Heavier Storm Is Predicted In Washington

SEATTLE, Dec. 13—UP—After a temporary lull in rainfall, forecast for rain in western Washington with additional storm warnings rendered the flood situation still acute tonight.

Forecast of rain or snow in the mountains also caused apprehension. Rivers dropped about two feet in the Kent and Puyallup valleys and about 200 feet of highways between Kent and Highline were created by the receding waters to have been undermined.

Officials damage estimate from the inundation, second of the year here, had not been reached yet, but it is believed to hover around \$500,000.

The man was charged with stealing clothing.

Pierce county was hardest hit. About 1200 CWA workers labored today in seven counties to repair damage done by the flood. Aid was asked from President Roosevelt.

LINDBERGH READY FOR FINAL HOP

PORT OF SPAIN, Dec. 12—UP—

Hurrying home for Christmas, Col. and Mrs. Charles A. Lindbergh said tonight they hoped to take off at dawn tomorrow on the next phase of their aerial journey back to the United States.

They were guests of the local authorities today, but refused invitations to social functions on the island. Lindbergh overhauled their low-winged monoplane during the day and supervised the refueling of their ship which has carried them nearly 25,000 miles.

The fliers expected to continue northwestward over the regular Pan-American Airways route toward the United States but refused as usual to designate their next pause on their way home. It may be Puerto Rico or Havana, or they might try to make Miami, Fla., in one jump, although that was believed doubtful.

The seaplane was apparently in good shape, despite the grueling strain of the past several months in almost constant flight, but Lindbergh intimated he would take no chances on the last legs of their remarkable cruise around the north and south Atlantic.

Arthur Aynsley, 315 Twelfth street, a drover worker, pleaded guilty to charges of petty theft before Police Judge C. A. Odell yesterday. He will appear today for sentence.

The man was charged with stealing clothing.

Pierce county was hardest hit. About 1200 CWA workers labored today in seven counties to repair damage done by the flood. Aid was asked from President Roosevelt.

"No, children, Santa Claus does not mind cold weather."

"Just the same, Grandma, I think he likes our house because we have Natural Gas Heating."

Natural Gas
Naturally.... THE BETTER FUEL

THERE is no trouble with sudden temperature changes if you heat with Natural Gas, the most flexible fuel.

What a problem weather changes make for the home with an old-fashioned heating system! In the morning the question as to whether the furnace or the fire should be started or not. Or just how big a fire should one make? Then, perhaps a good fire is started and the sun comes out and the house becomes unbearably warm. These things mean discomfort. They may cause

winter colds in the head. They mean added work and fuel waste.

In the house with easily controlled Natural Gas Heating, one just turns up heat or turns

down heat to match the weather. Indeed, in every way Natural Gas Heating is the most carefree method of heating the home. Fuel is delivered automatically, and is always on hand. Uniform temperature is maintained within the home at all times regardless of outside weather.

Now about your home. Is it ready for changeable weather? Investigate Natural Gas Heating. It is reliable, it is healthful, it is inexpensive. Be comfortable this winter. Install Natural Gas Heating equipment now.

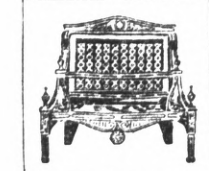

The Steam Boiler

Gas lends itself more readily than any other fuel to a steam heating system. Made for every type of dwelling, small or large, apartment or flat.

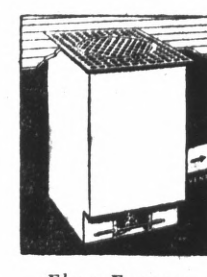

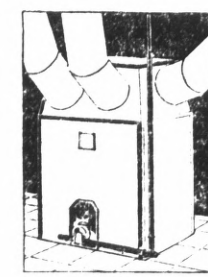

The Radiantfire

For a cheerful fireplace that always stays clean, install a Radiantfire. Made in many sizes and styles. Beautiful, efficient and inexpensive to buy and operate.

Warm-air Furnace

One of the finest of automatic heating systems. Yet modern homes can afford it. Recommended by architects and contractors.

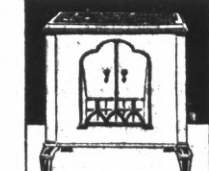

Floor Furnace

Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

Circulating Heater

Attractive, low in first cost and highly efficient. It heats two to four rooms. Made in many sizes and styles. Extremely economical to operate.

WOMAN IS SOUGHT IN MAN'S DEATH

(Continued From Page One)

let and watch led to a theory that the assailant tried to simulate a robbery.

The fact that Dr. Siever habitually left his office at 7 o'clock and walked a short distance to his parked automobile beyond the Masonic Cathedral indicated, according to detectives, that the slayer was familiar with his habits.

The select social-artistic group through which the dentist moved may contain the key to the slaying, officers indicated. They raised the conjecture that his place in the affections of a woman could have led to the slaying.

BODY FOUND
A milkman found the body early today.

A cathedral watchman, Peter Bennett, said he heard no shot during the night.

Apparently Dr. Siever was killed as he opened the door of his car to drive away.

FOUNDED LEAGUE
Dr. Siever had a wide practice among the wealthy of Pasadena, Beverly Hills and Hollywood. He was known as an "esthetic dentist" specializing in expensive platework.

He was a founder of the Anti-Student's League, a laborer foundation for musical students. He was graduated from the University of Michigan.

Information On Christmas Mailing

Mail for points in eastern states should be mailed as soon as possible to be assured of delivery before Christmas day. Mail for points in the middle western states should be mailed not later than Monday, December 18.

There seems to be considerable confusion regarding the rate of postage which must be paid on Christmas cards included in envelopes. Such cards if sent in sealed envelopes of if they contain written messages even though the envelopes are not sealed require 3 cents postage when mailed in unsealed envelopes may be mailed for 15 cents postage. Such cards are not treated as first class mail and may not be forwarded to new addresses or given directory service if they are incorrectly addressed. It is also stated that such cards are not to be returned to sender if incorrectly addressed.

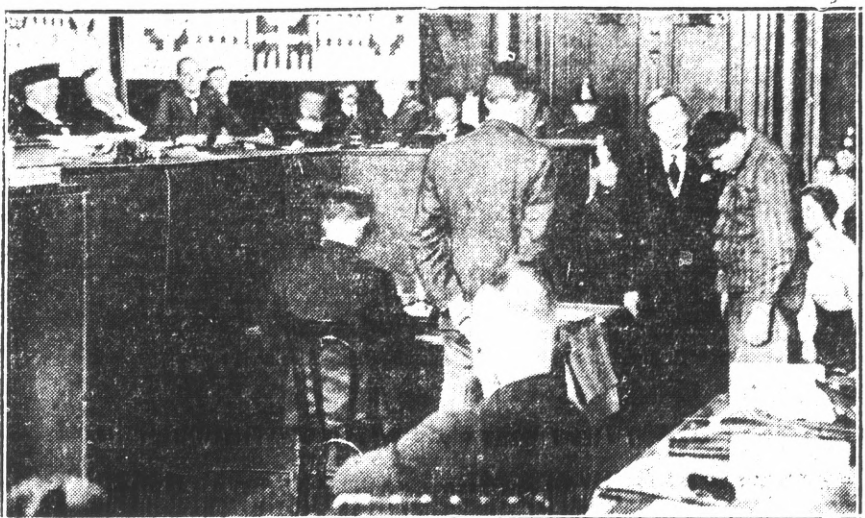

Kissing Of Feet Wife's Objections

MODESTO, Dec. 13.—UP—Mrs. Mary Justin Saso alleged today

Notice Of Non-Responsibility

Having purchased the vegetable department of the PEOPLE'S MARKET situated at 2231 Macdonald Avenue from Hall C. Venezia on November 15, 1933, we will not be responsible for any debts contracted by him before that date.

Confronted by Chief at Fire

COUNT HELLDORF (standing with back to camera), Chief of the Potsdam Police, called as a witness at the Reichstag fire trial in Berlin, faces the eccentric Dutch defendant, Marinus van der Lubbe (standing with bowed head). Van der Lubbe failed to identify the Count who was one of the Nazis the defense claimed had had a part in setting the blaze.

\$10,000 SUIT FOR SLANDER IS STARTED

(Continued From Page One)

Schulze proposed to him that for payment of \$25 he would accept the contract for him for an additional six months. This affidavit also said, according to Schulze, that Mrs. Stoll had been present with county funds, meat, chicken, turkey, liver, sausage and other foodstuffs by Schulze, and also stated that on June 22, 1933, Stoll presented Schulze with a check for \$25 as part payment for the contract.

Schulze alleges that the affidavit was malicious and untrue and that it was intended to destroy his character and indicate he received a bribe for the contract.

He further sets forth in his complaint that on September 25, 1933, Stoll caused the affidavit to be read by the board of supervisors and he was discharged.

The name of the cook figured in recent trial of a contested divorce suit of the baker and his wife, Anna.

Death Is Caused By Fractured Skull

GUERNEVILLE, Cal., Dec. 13.—UP—Harold E. McBride, 48, Santa Rosa realtor and insurance man, slipped on a rain-drenched sidewalk and struck his head here today. He died five minutes later of a fractured skull.

that her husband Joseph demanded that she kiss his foot in token of respect for imaginary wrongs. Mrs. Saso petitioned for divorce on grounds of cruelty.

Riot in Holy Land

THE ARAB riot in Jerusalem on Friday, October 13th, which was a forerunner of the recent more serious outbreaks in which more than a score were killed as Arabs throughout Palestine demonstrated against Jewish immigration. Police and British troops are seen quelling the rioters. Shoes, used by Arabs as missiles, litter the road. One injured man has fallen to the ground.

ROUGH TIME EXPERIENCED BY FISHERMEN

MONTEREY, Dec. 13.—UP—Captain V. Tanuma and his crew of three, barely ablaze fishermen, fought towering waves and fashing gales for hours in a small boat before landing here today, none the worse for the explosion and fire that destroyed their fishing craft, Utah off Point Pinos last night.

As four Coast Guard and zoedetic survey vessels searched the storm-tossed seas for survivors of the wreck, the Japanese went quietly to bed, unaware of the excitement they had caused.

Coast Guardsmen had feared that an oil tanker, with 35 men aboard, had exploded and burned.

Tanuma's crew consisted of E. Shimpin, M. Maenlyo and Y. Aonima.

"We left Monterey harbor Tuesday morning to fish in the big surf section near San Luis Obispo," said Captain Tanuma.

"Engine trouble came and the big storm hit us. A sudden backfire caused an explosion and fire swept all over the boat.

"We didn't have time to get our coats. We jumped into the tender we use in diving for abalone.

"The sea was very rough and huge waves came over us because the boat is only 20 feet long. It was raining hard and a southwest wind came on and almost knocked us down. We had to hold onto the sides of the boat. After some time, we got the motor started and for two hours we went through the worst experience I have had in 50 years of fishing. Every moment I thought the boat would turn over and I did not think we had a chance of swim-

ming ashore.

"Finally after fighting the waves for many hours we got into view of Monterey. We anchored the boat and went home. I did not know anyone was looking for us or we would have reported our arrival."

THREE SUITS FOR DAMAGES ARE SETTLED

MARTINEZ, Dec. 14.—Settlement of three suits for damages was revealed today with the filing of dismissals in the actions by attorneys.

An action for \$25,500 damages against Frank McFadden was dismissed by Attorney Thomas M. Carlson, who represented Nettie Morgan, Perry Morgan, Earl Morgan, Murphy Morgan, Gladys Morgan, Edward Morgan and Roselle Morgan.

Two actions, seeking \$20,000 from D. H. St. Clair were dismissed by Attorney Elliott Johnson of Oakland, counsel for the plaintiffs. One suit was filed on behalf of Ruth Davis, asking \$10,000, while a similar amount was asked in an action filed by Lucille Davis through her guardian, O. R. Davis.

In the first action, against McFadden, it was charged that on August 4, 1933, Perry M. Morgan, 58, died after being struck down by McFadden's machine in Pittsburg.

The Davis girls charged that due to negligence of St. Clair they were injured in an automobile accident May 14, 1933, on Marsh Creek highway, at its intersection with Walnut boulevard.

ROOSEVELT CONTINUES CWA PLAN

Richmond men employed on public works projects, yesterday received with satisfaction news that President Roosevelt intends to do everything within his power to keep the CWA going until spring.

According to press dispatches the President as informed by Harry L. Hopkins, CWA administrator, that 4,000,000 men will be on the CWA payroll by Saturday.

WASHINGTON, Dec. 13.—UP—The administration goal in its recovery program is a degree of improvement that will enable the federal government to pull out of much of its expensive direct relief work by May 1, it was indicated today.

High officials have been reluctant to set goals for recovery since the wave of disappointment that greeted the failure of the NRA to equal the extravagant re-employment promises made for it early last summer. Dates have been set for completion of individual sections of the program, but not for the general progress toward stable conditions.

ASK MORE CASH

Today, however, it was learned at the White House that the President would ask Congress at its coming session for only \$350,000,000 in additional funds for the Civil Works Administration, enough to carry it until May 1. The CWA already has \$1,000,000,000. By May 1, it was indicated, 1,000,000 persons, expected to be reemployed under the program by Saturday, will be off the emergency payroll, which has been termed by anti-administration observers a "work dole." The Civil Works will be tapered off slowly, beginning in the south, as warmer weather and improved conditions warrant, and by May 1 is expected to be all over.

That means the administration figures that employment in private business and public works will have improved enough to absorb most of the Civil Works employees, and that conditions will be so much better that states and cities can take care of the rest without federal help. It is a fair presumption that other forms of direct relief are expected to taper off correspondingly over the same period.

The May 1 deadline seems to indicate that the administration believes from its present information that the long winter pull of 1933-34 will end the period of severe suffering and see the beginnings of real recovery.

Administration confidence was indicated further by White House assurance that the 1933-35 budget to be adopted at the January session of Congress will not only be balanced, but will show a substantial surplus of income over ordinary expenditures. Special recovery expenditures that continue into the new fiscal year beginning next July 1 will not be covered by this budget; they will be considered on an emergency basis, as they are being handled this year.

The budget surplus forecast was another step in the recent efforts of the administration to emphasize that the dollar is sound as a unit of currency, whatever may be done to its gold content.

Uncontrolled paper inflation has occurred usually in nations which have worried along with unbalanced budgets and ever mounting deficits. If the unbudgeted emergency expenditures do not get out of hand, and the regular budget is kept balanced, the incentive to inflate by paper is to a large extent withdrawn.
